Currently Learning

I'm currently expanding my skills in **AWS (Amazon Web Services)**, focusing on cloud infrastructure, serverless architectures, and scalable solutions for AI applications.

Areas of Expertise

- Artificial Intelligence and Machine Learning
- ⚙️ Real-time Problem Solving and Intelligent Automation
- Image Classification and Model Optimization
- End-to-End AI System Design
- Collaboration, Innovation, and Real-World Impact
- Computer Vision and Object Detection

Notable Achievement

I participated in a **GenAI hackathon** and ranked in the **Top 50 out of 500 teams**. Our project focused on wildlife poaching and animal detection using AI.

🔪 Fun Fact

I started exploring AI out of curiosity—and now it's my full-time obsession!

Technical Skills

Programming Languages

- Python
- Java
- C

AI/Machine Learning

- Scikit-learn
- TensorFlow
- PyTorch
- OpenCV
- Pandas
- Seaborn

DevOps & Cloud

- Amazon Web Services (AWS)

Web Development

- HTML5
- CSS3

Software & Tools

- MATLAB
- Adobe Illustrator

Automation

- Zapier
